The Nautical Almanac S V Inua

Carl Winright 15.07.2015 at 13:36. Enno, It appears that in The Nautical Almanacs made by Pyalmanac that whenever a heavenly object s declination is negative and the integral declination value is zero there is no minus sign beside it. I just checked the 2015 almanac and found Venus, Mars and the Moon with that problem. As said previously, examination of the declination easily will solve the problem but it would be nice to have it correct with no ambiguity.
